

**Recent Operations**  
By Paul Hardin

Last week I had the recipe for a fish stew in this column and already I've had three letters from folks wanting to know if I left out anything or was the recipe complete.

Did you ever go fishing and never wet a hook? I had that happen to me over the past week end. There is a certain lake near Immokalee and in that certain lake are said to be certain big fish. But a small hurricane came along about the time I was ready to go fishing. The results were that on that fishing trip we lived on swamp cabbage and beef steak. Not a bad combination.

It looks like it's going to be Senator Pepper. Personally that pleases me and I believe it pleases the majority of the people in the state. But something must be done about selecting a colleague for Senator Pepper. Something must be done now and August 11 the supreme court of Florida will have to make a decision saying whether or not we will have a primary on August 11.

Lou Belcher in Belle Glade said yesterday that there is still an opportunity for someone to win whose valuable life is offering in this election. Belcher is a man who is why Z. T. Ingram don't take an hour or two off and go out and get some fish. Belcher is a man who is why Z. T. Ingram don't take an hour or two off and go out and get some fish. Belcher is a man who is why Z. T. Ingram don't take an hour or two off and go out and get some fish.

And before I get off the subject I saw Lewis called the price at Denton's last week with a bass weighing six pounds and ten ounces. So far this week N. D. Davis is the man who is weighing six pounds, N. D. is set for a prize this week, that is if I don't decide to go fishing between two and six pounds.

I went out to L. C. Komer's place this week and he showed me the model of a new water runner. He has the water runner on hand to build several of that type and I am predicting that when he gets it perfected, there'll be plenty of them sold in the Lake region. If all come out right, I think the machine works perfectly. I may get him to help me build my hydraulic excavator which I hope will keep clear of all hydraulic in the future.

I told a friend about my idea for a machine to clear the Lake of weeds. He and he thought the idea was good. In fact he wanted me to go into details as to the intricate working parts of it. He was really worked up over the matter and wanted to know how long it would be before I'd have it built and working. When I told him that I would need several thousand dollars to complete it, he changed his subject immediately.

Once more I visited the lumber yards in Pahokee and Belle Glade and found them the busiest places in the Lake region. While merchants are making a little bit of business these dispensers of lumber are enjoying an excellent summer. I just thought I'd pass the word along in case you have a friend who owns a lumber yard.

Packing houses in the Lake section will be bigger and better during the coming season. Some of them are already under way and will be built before the first bear is picked. I know of one that is being newly new and will be enlarged about 50 percent before the season opens. But, the owner said he was doing anything about it for a day or two, I won't.

I just happened to think of some pleasant news from months from tonight's Christmas Eve. Wonder if Santa will bring me what I want? I'd rather be a boy.

A friend of mine called me aside the other day and gave me some dandy articles for this column—so he said. But, I want to live to be a man and on one of that I'm living in the Lake region. The articles aren't in this column and won't be in the future.

**TO ACCEPT MORE BOYS FOR THE CCC**  
Dr. Carl N. Herman, chairman of the District No. 10 Board of Social Welfare has announced that the district board will continue to accept applications for enrollment. The date of the next enrollment has not been announced. The board is now accepting applications for enrollment in the district board, or other public or private agencies. Some boys whose names are on the list of boys in need of the CCC allots will be certified as alternates. Young men who go to CCC camps get \$35.00 a month. Any person desiring to be certified as an alternate should be sent directly to their families or to the board which is in need of this allotment.

**SPECIAL MEETING OF GOLF CLUB JULY 21ST**  
A special meeting of the Lake Okechobee Golf club is called for July 21, at 8 p. m., at the American Legion hall in Pahokee, for the purpose of adding Section 6 of Article A. Types of Membership, and to discuss the purchase of equipment for watering greens. The announcement of the meeting was made by H. L. Lapp, president.

**PAHOKEE COUNCIL TO SET AS EQUALIZATION BOARD**  
A large notice is being published this week in which it states that the Town Council of Pahokee will set up an equalization board on August 1st. Any person desiring to be certified as an alternate should be sent directly to their families or to the board which is in need of this allotment.

**Bank of Pahokee Report Shows Institution In Thriving Condition**  
June 30th Report Shows Bank Has Deposits of \$890,846.17

The statement of condition of the Bank of Pahokee issued on June 30, shows that institution in excellent condition. Total deposits as listed on the statement amount to \$890,846.17 with capital and surplus of \$50,000 and undivided profits and reserves of \$170,074.76. In the statement will be found loans and discounts of \$104,917.10. U. S. bonds \$98,950.00; other marketable bonds \$114,001.00; loans secured by listed stocks and bonds, and readily marketable commodities, empty margined and other commercial loans \$20,600.00; cash on hand and due from banks \$607,882.53.

The Bank of Pahokee is a member of the Federal Reserve Bank of St. Louis and has deposits up to \$50,000.00 are insured under the Federal Deposit Insurance Corporation. The institution also is a Federal government depository.

Several months ago Wauchula interests purchased the bank from the founders and H. M. McIntosh, president, moved to Pahokee from the Wauchula county seat and active charge. Other officers are J. W. Crews, vice president, who is the president of the State Bank in Wauchula, and Rupert McKee, cashier, who succeeded Marshall Bell, resigned.

Directors of the institution are Heflin Eubanks, representative of the American Mortgage and Investment Company of Jacksonville, who lives in Wauchula; Wilbur W. Whitehurst, prominent Wauchula banker; and J. W. Crews, who is also a representative of the American Mortgage and Investment Company. J. W. Crews, president of the Wauchula State Bank and the new president of the institution, H. M. McIntosh.

McIntosh is now in active charge of the bank's affairs, in commenting on the condition of the bank, he said that the progress the bank is now making and, sincerely grateful to the people of the Everglades section for the splendid patronage they have shown us. We hope to grow with the community and at all times feel our responsibility as servants of the people who make our institution possible."

**REPAIR STREETS IN TOWN PAHOKEE**  
A state road crew was busy yesterday repairing the street in the town of Pahokee. Several months ago the contractor necessary had to tear up the streets near and about the town. The contractor is now repairing the street in the town of Pahokee. Several months ago the contractor necessary had to tear up the streets near and about the town. The contractor is now repairing the street in the town of Pahokee.

**NEW RADIO STATION AT PALM BEACH BEARS COMPLETION; TESTS MADE**  
Radio Station WJNO of West Palm Beach soon will be on the air, the date of the initial program to be announced shortly, according to Senator John R. Beacham, president of Hazelwood, Inc., owner of the station.

Finishing touches are being placed on the station located on Okeechobee road near the west city limits. All broadcasting equipment has been installed and is ready for use. Tests have shown that the station will be able to have a longer range than expected. It was said by George Hazelwood, manager. The station has been notified that its test signals were picked up as far away as Massachusetts and at many points throughout the south and middle west.

Flooding of the station grounds several weeks ago caused the opening to be closed. The station is now open and is ready for use. A dike has been constructed around three sides of the property to prevent future flooding and a roadway will be built from the highway to the building.

**LUMBER DEALERS SMILE AS MANY HOMES ARE BUILT IN PAHOKEE**  
After a couple of visits to the lumber yards in Pahokee and seeing the progress of the town, I decided to see where all the lumber is being used. After a few minutes on an inspection trip it was easy to see why lumber dealers are enjoying one of the best summers since Pahokee has been a town. Old timers in Pahokee said that more homes, large and small, are being constructed here this summer than ever before in the history of the town.

In the effort to reconstruct the town under way I drove to the south end of Bacon Point where the pavement ended. There is a beautiful lawn flanked by Royal palms and in the background rises a home of W. J. Anderson is the owner and Fred McDonald of Canal Point is the contractor in charge. The street will have eight rooms and bath and when completed will be one of the prettiest homes on the Lake. The roof will be of brick red shingles and the weatherboarded of reserved bevel type. Mr. Anderson plans to paint the new home white and in its beautiful location be a show place when completed.

Mr. McDonald showed the entire structure to me. I've ever seen a home substantially built there is one. The foundation, for instance, consists of piling driven to the rock, aways of at the water line, capped and concrete with the concrete piers extending above the ground about 18 inches. Anchored bolts run down into the concrete about 30 inches and are securely fastened to the sills. It takes a powerful wind to move the foundation. In an effort to find out terms the subfloor and sills have been treated in intervals, a fancy name, for creosote, so Mr. McDonald said.

After getting an eyeful of that beautiful home I came back up the road to where Henry S. Lovett is building a new home. Henry is more or less a carpenter himself and is doing his own work. He is erecting a nice little town room bungalow with a garage, a fair built on the side. He told me the name of that particular place where he plans to keep his long enough to write it down. Henry is doing a nice job and will soon be moving in.

**NOMINATED**  
The 35-year-old Tallahassee attorney who is unopposed as the Democratic nominee for the United States Senate will be elected to the death of Duncan U. Fletcher.

**QUOTA OF 27,300 WPA WORKERS IN STATE IS FILLED**  
Some Must Be Displaced Before Others Can Get Jobs

With district WPA offices throughout Florida and job applicants, State WPA Administrator E. A. Pynchon has called for a new quota of the state to follow the revised methods of qualifying for assignment projects.

Although it eventually will be possible for some of the needy, who previously have not been assigned to WPA projects, to get a job, no purpose will be served by a rush to local offices of the WPA State Board of Social Welfare, Pynchon declared.

Every job in the present limited quota of 27,300 workers is filled, the administrator explained, and added that before any additional workers can be employed some of those now on the rolls must be displaced.

Despite this condition, hundreds of persons, wrongly believing that the state's new schedule meant that anybody could get a job, have continued to crowd the offices of the WPA in the Florida State Board of Social Welfare, Pynchon said.

The revised procedure outlined by Pynchon at his conference last week has not changed the requirements that the State Board of Social Welfare must have in mind applications for relief, Pynchon said.

**GASOLINE CONSUMERS IN PALM BEACH COUNTY PAY \$38.02 PER MONTH JUNE**  
County gasoline consumption in June totaled 758,317 gallons on which \$3,082.19 in the seven-cent state tax was paid, according to figures released by the state department of agriculture and experiment station.

State consumption was 1,266,846 gallons on which three cents of the tax totaled \$380,050.28 and will be apportioned among the counties.

Of the tax money originating in this county, \$27,744 goes to the state road department, \$7,583.17 to the state general revenue fund and about \$26,883.87 will be credited to the county for road and bridge bonded indebtedness.

**Everglades Drainage District Seeks \$15,286,162.71 for Refinancing**  
COOPERATION OF TRUCKS, BUSES ASKED IN SURVEY

TALLAHASSEE, July 23—Request for the cooperation of all common carrier truck operators and all motor bus lines in the state road department, \$7,583.17 to the state general revenue fund and about \$26,883.87 will be credited to the county for road and bridge bonded indebtedness.

Parker quoted C. B. Treadway, chairman of the state road department, as stating that "the whole-hearted support and confidence of the motor traveling public is essential if an accurate record of facts is to be obtained."

It should be understood, therefore, it was pointed out, that traffic laws with respect to overload or improperly equipped trucks will be required or contemplated by any member of the highway planning survey."

Parker stated that the results of the survey, started two weeks ago, will include a study of the need for road improvements in the next 20 years. Record the present state of all parts of the selected mileage with respect to traffic survey ability and indicate further improvement required to reach satisfactory service ability, and indicate sources from which the necessary funds can be obtained, properly related to benefits conferred.

**Doyle E. Carlton Has A "Farmer Boy" Background**  
TAMPA, July 23—Doyle E. Carlton, former governor and candidate for the United States Senate, is a native son of Florida. Like many men in public life of our country, he has a "farmer boy" background. He was born and reared on his father's farm and cattle ranch near Wauchula, formerly DeSoto, now Hardee county.

A product of the farm, he remained a farmer and one of his favorite diversions is to spend his time for rural vacations in his own farm and ranch in Hardee county. Since young manhood he has been active in citrus growing, cattle raising, and truck farming, as well as in a modestly successful business as a student and analyst of political and civic matters.

Carlton is a member of the United States Farm Bureau, the National Cattle Raisers' Association, the National Live Stock Association, the National Horse Raisers' Association, the National Rabbit Raisers' Association, the National Poultry Raisers' Association, the National Beekeepers' Association, the National Fish Raisers' Association, the National Fruit Raisers' Association, the National Vegetable Raisers' Association, the National Flower Raisers' Association, the National Ornamental Plant Raisers' Association, the National Tree Raisers' Association, the National Shrub Raisers' Association, the National Grass Raisers' Association, the National Hay Raisers' Association, the National Seed Raisers' Association, the National Soil Raisers' Association, the National Water Raisers' Association, the National Air Raisers' Association, the National Light Raisers' Association, the National Sound Raisers' Association, the National Heat Raisers' Association, the National Cold Raisers' Association, the National Wind Raisers' Association, the National Rain Raisers' Association, the National Sun Raisers' Association, the National Moon Raisers' Association, the National Stars Raisers' Association, the National Planets Raisers' Association, the National Universe Raisers' Association.

# STATE BANK DEPOSITS UP 24.25 PER CENT OVER LAST 12 MONTHS

TALLAHASSEE, July 23.—The comptroller's office announced today that state banks and trust companies total \$66,533,000 on June 30, representing an increase of 24.25 per cent over the previous 12 months.

The state banking department said the rise "reflects increased business confidence."

Deposits June 30, 1935, total \$53,551,000, with \$12,987,000 less than the figure for June 30, 1936.

Loans and discounts stood at \$17,004,000, as compared with \$13,629,000 at the end of the previous period, representing an increase of 24.48 per cent.

The current statements by state banks also showed that investments in governmental bonds and securities amounted to \$27,750,000, with the total cash and due from other banks totaling \$20,341,000.

Governmental deposits showed a slight decline. The banking department said this indicated "clearly that the increase of 24.25 per cent in deposits for the year represents increased business for individuals, firms and corporations, and is not attributable to an increase in public monies which are raised through collection of taxes or the issuance of bonds by political subdivisions of the state."

DOYLE E. CARLTON HAS "FARMER BOY" BACKGROUND

(Continued from Page 1) Doyle E. Carlton, who has been associated with the firm...

While a student at the University of Chicago he won the national oratorical contest with the University of Michigan. He is recognized today as one of Florida's really great orators, familiar with the state's economic and industrial development and needs and a champion of its interests.

Coupled with an inheritance of initiative, aggressiveness, and poise, Carlton as a boy learned the value of hard work. He knew much of hardships and privation common to farm life at that time.

There was little luxury. He tied himself into the routine of rising with the sun, feeding the stock, milking the cows, plowing the fields, and packing fruit and vegetables. He absorbed much of the wholesome, practical influences of clean outdoor life.

Between 1917 and 1919 Mr. Carlton served as state senator for Hillsborough county, which then embraced Pinellas county. In 1928 he was a member of the United States House of Representatives.

Since early youth he has been a member of the Episcopal church. He is a member of the Masons, Scottish Rite, Shriners, Elks, Knights of Pythias, a Kiwanist, and a director of the Tampa Y. M. C. A. He is a member of Delta Epsilon chapter, and was married in June, 1912, to Miss Nell.

Try CARDUI For Functional Monthly Pains

Women from the teen age to the change of life have found CARDUI genuinely helpful for the relief of functional monthly pains due to lack of just the right strength from the blood.

Dr. J. J. Schriber in Pahokee, Fla. writes: "I used CARDUI when a girl for cramps and found it very helpful. I never had a headache, but now I have one. I feel better. I feel like a new woman."
